Dear Friends

On behalf of the Iraqi Al-Amal Association I would like to thank you all for your generous donation to the children of Iraq. Your support has filled us with joy and, I am sure, will bring happiness to many children in Iraq.

As you know many generations have been destroyed in Iraq through wars, repression and sanctions. Today's children of Iraq have seen nothing but violence, lack of basic needs, displacement, etc.

Our mission, in part, is to contribute to the development of all children to enable them to live normal life through the provision of health services, education, training and pass-time activities. I list below examples of past and present projects concerning young people and children:

- Health services at Erbil Clinic and previous mobile and maternity clinics.
- Health Centre assessment & health awareness for "mothers and child care".
- Medical sponsorship of children with chronic diseases.
- Providing aid to displaced and poor families
- Previous programmes of constructing or renovating schools and health centres.
- Water supply installation in remote villages and water purification installations in hospitals.
- Various workshops, exhibitions, social events and leisure activities for children and young people.
- Summer camps for children in Iraq.
- Winter camp in the Slovakia Republic for Iraqi orphans.
- Conflict resolution programme for teenage students.
- Civil Dialogue Among Young People.
- Training teachers to teach Human Rights subjects at schools
- Training teachers in "Combating Violence Against Children" at home, schools and the community.
- Meeting of children with their divorced or separated mothers at Al-Amal Family Advisory Centres in Baghdad, Najaf, Basra and Kirkuk.
